

PRO

Magnesium Plus

Magnesium malate + glycinate

- Energy production
- Stress
- Muscle tension and weakness

 Vegan  Non-GMO  Gluten Free

PRODUCT DESCRIPTION

Pro Magnesium Plus provides both magnesium malate and magnesium glycinate. This simple, yet effective formula combines two of the most popular forms of magnesium for optimal effectiveness.

Magnesium helps maintain proper muscle function, metabolizes carbohydrates, proteins and fats, and is a factor in the maintenance of good health. Malic acid is important in the production of ATP, while glycine is an amino acid that acts as a central inhibitory neurotransmitter for a calming effect.

AOR ADVANTAGE

Pro Magnesium Plus contains only a true chelate of magnesium with malic acid and glycinate.

NPN: 80079128

120 capsules

Serving Size:

Two capsules

Medicinal Ingredients:

Magnesium (from magnesium glycinate and malate)

AOR 34317

150 mg
