Each capsule contains:

Ginkgo biloba extract (leaf, <i>Ginkgo biloba</i>)	120mg
5.4% terpenes lactones, 22% flavonoid glycosides, 50:1, DHE 6000mg	

60 vegetable capsules

*PhytoProof® is a registered trademark of Euromed USA, Inc

Vegan. GMO, gluten, soy and dairy free.

Ginkgo biloba is a well-known herb that has traditionally been used as a memory aid and to improve overall cognitive function. Dozens of research trials have confirmed that *Ginkgo biloba* is capable of improving cognitive parameters such as reaction time, memory, processing speed and accuracy, short term memory and facial recognition.

Ginkgo biloba's positive effects on the nervous system are primarily attributed to its ability to upregulate nitric oxide pathways and improve blood flow into the brain, thereby increasing oxygen delivery, nutrient delivery and the elimination of toxic byproducts to the central nervous system.

Key points

- 120mg (50:1 extract; Dried Herb Equivalent [DHE] 6000mg) of *Ginkgo biloba* leaf extract per vegetable capsule, standardized to contain a minimum of 24% ginkgo flavone glycosides and 6% terpenes lactones
- Designed to enhance memory and cognitive function through its ability to upregulate nitric oxide pathways and improve blood flow
- A part of the Herbal Matrix series, containing sustainably sourced, traceable and GMO-free herbs with potent therapeutic properties
- 60 vegetable capsules per bottle

Ginkgo biloba's beneficial effects on the human body extend beyond memory and cognition. Clinical trials have also found that the herb may be capable of improving symptoms of intermittent claudication, premenstrual symptoms, acute mountain sickness, mood in individuals with cerebral injury, ocular blood flow, and sleep quality in those with mood disorders. Individuals with high-risk of cardiovascular events appear to benefit from *Ginkgo biloba* supplementation because of its additional ability to prevent LDL oxidation.

Ginkgo Biloba from Cyto-Matrix contains 120mg of *Ginkgo biloba* leaf extract per vegetable capsule, standardized to contain a minimum of 24% ginkgo flavone glycosides and 6% terpene lactones. **Ginkgo**

Biloba is also guaranteed to be low in ginkgolic acid, a compound found to be neurotoxic, genotoxic and allergenic when ingested in higher amounts. Each bottle of Ginkgo Biloba contains 60 vegetable capsules.

Ginkgo Biloba is a part of the Cyto-Matrix Herbal Matrix Series, containing sustainably sourced, traceable and GMO free herbs with potent therapeutic properties. Each herb is extracted and tested to ensure the standardization of active ingredients, ultimately leading to efficacious, predictable and reliable products. The Cyto-Matrix Herbal Matrix Series of herbal extracts is beneficial for both the health of individuals, and also the health of our planet and future generations.
