Biotics Research offers several formulas that support neurological function, including:

Mucuna pruriens Powder: Supplies a naturally occurring source of L-Dopa. Dopamine is largely responsible for regulating physical movement, emotion, and the pleasure and motivation centers of the brain.

NeuPerzine: Supplies Huperzine A—an effective acetylcholinesterase inhibitor which makes acetylcholine more readily available to the brain, and has been demonstrated to support memory function.

Visit www.SupplementYourSuccess.com for more information on these products. Call or ask about these and our other NeuTropic™ products.
