Fish oil	*	

† Percent Daily Values based on a 2,000 calorie diet
* Daily Value not established

Other ingredients: Capsule shell (gelatin, glycerin, water and carob), mixed tocopherols, ascorbyl palmitate and rosemary extract.

Contains ingredients derived from anchovy.

Each serving of Optimal EFAs® Caps provides:

ALA (Alpha-Linolenic acid)	380 mg
EPA (Eicosapentaenoic acid)	205 mg
DHA (Docosahexaenoic acid)	154 mg
GLA (Gamma-Linolenic acid)	152 mg
Oleic acid	200 mg

This product is gluten and dairy free.

RECOMMENDATION: Two (2) softgel capsules two (2) times each day as a dietary supplement or as otherwise directed by a healthcare professional.

CAUTION: Not recommended for pregnant women.

KEEP OUT OF REACH OF CHILDREN
Store in a cool, dry area. Sealed with an imprinted safety seal for your protection.

Product # 1407 Rev. 07/18

Optimal EFAs®

ESSENTIAL FATTY ACIDS
BALANCED FOR YOUR HEALTH

BIOTICS
RESEARCH
CANADA
"The Best of Science and Nature"

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

Why Optimal EFAs®?

Fatty acid imbalances are common in societies like ours that consume an abundance of processed foods (high in artificial ingredients), hydrogenated (trans) fats, and have an over-reliance on grains. Essential fatty acid (EFA) deficits generally occur in combination; therefore, supplementation with a balanced combination of EFAs makes logical sense.

Optimal EFAs® supplies a unique balance of omega-3, -6, and -9 fatty acids by using the highest quality fish, flaxseed, and borage oils. Each capsule provides optimal ratios of alpha-linolenic acid (ALA), eicosapentaenoic acid (EPA), docosahexaenoic acid (DHA), and gamma linolenic acid (GLA), along with oleic fatty acids.

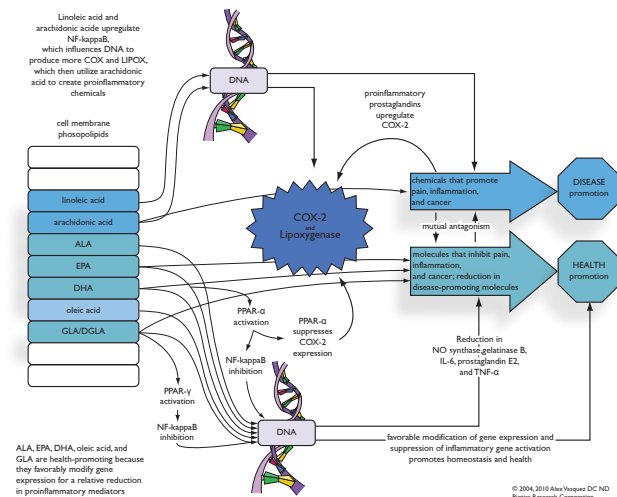

Fish oils are a rich source of the long-chain polyunsaturated omega-3 fatty acids, EPA and DHA. DHA is a vital component of cell membranes, and is especially important for optimal functioning of the brain and eyes. Both EPA and DHA are important for maintaining healthy blood lipids and inhibiting the conversion of arachidonic acid (a fatty acid associated with cancer and heart disease) into pro-inflammatory chemicals (such as prostaglandins and leukotrienes) that cause pain and inflammation.

Biotics Research Corporation takes pride in periodically reviewing raw material sources to be certain the freshest ingredients comprise our products. We are pleased to announce that *new and improved Optimal EFAs®* now contains EPA and DHA sourced from a strategically-placed facility in the far South Pacific Ocean off the coast of Chile, guaranteeing the freshest fish oil available with full traceability and unparalleled purity.

Flaxseed oil is a very rich source of alpha-linolenic acid (ALA), an omega-3 polyunsaturated fatty acid, and oleic acid, the same fatty acid attributed to the heart protecting effects of olive oil. Increased consumption of ALA inhibits the production of pro-inflammatory compounds (such as prostaglandins and cytokines) and inhibits platelet aggregation thus reducing the risk of arterial blockage.

Borage oil is an excellent source of gamma-linolenic acid (GLA), which is considered “the good omega-6 fatty acid.”

GLA's main benefits come from its metabolites, which have anti-inflammatory properties and inhibit platelet aggregation. Like flaxseed oil, borage oil is also a source of oleic acid. Oleic acid supports healthy levels of blood glucose and insulin, as well as healthy levels of blood lipids.

The key message to remember is this – Americans generally consume too many omega-6 fats (such as corn oil) high in linoleic and arachidonic acids, and too much hydrogenated “trans” fats, all of which promote inflammation. Additionally, we generally consume too little omega-3s and other fatty acids which are known to be “health-promoting.” In addition, EFA deficits generally occur in combination, therefore, supplementation with a balanced combination of EFAs is clinically prudent. Masterfully formulated with noted researcher and author, Dr. Alex Vasquez, DC, ND, DO, and tested for purity using the highest standards in the industry, **Optimal EFAs®** provides ALA, EPA, DHA, GLA, and oleic acid in ideal ratios.

Optimal EFAs®

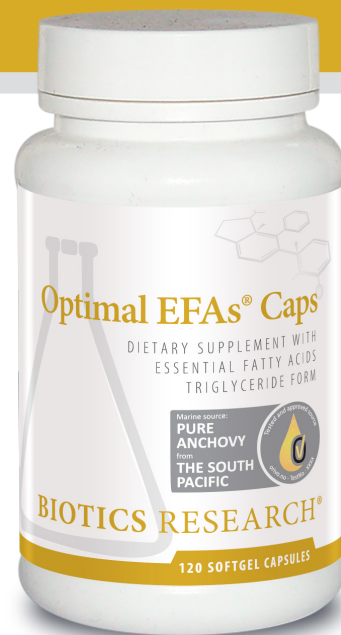

BALANCED FOR YOUR HEALTH AND NUTRITION

Optimal EFAs® supplies a unique balance of omega-3, -6, and -9 fatty acids by using the highest quality fish, flaxseed, and borage oils. Each capsule provides optimal ratios of alpha-linolenic acid (ALA), eicosapentaenoic acid (EPA), docosahexaenoic acid (DHA), gamma-linolenic acid (GLA) and oleic fatty acids.

Biotics Research Corporation takes pride in periodically reviewing raw material sources to be certain the freshest ingredients comprise our products. We are pleased to announce that *new and improved* **Optimal EFAs®** now contains EPA and DHA sourced from a strategically-placed facility in the far South Pacific Ocean off the coast of Chile, guaranteeing the freshest fish oil available with full traceability and unparalleled purity.

Essential Fatty Acids (EFAs) play an integral role in the optimal functional of our bodies, and help build the foundation for overall health. They are required for the formation of cell membranes, and are essential for cerebral and neurological development and functioning. EFAs are also necessary for the production of eicosanoids, which are collectively responsible for regulating blood pressure and viscosity, and mediating and regulating immune and inflammatory responses.

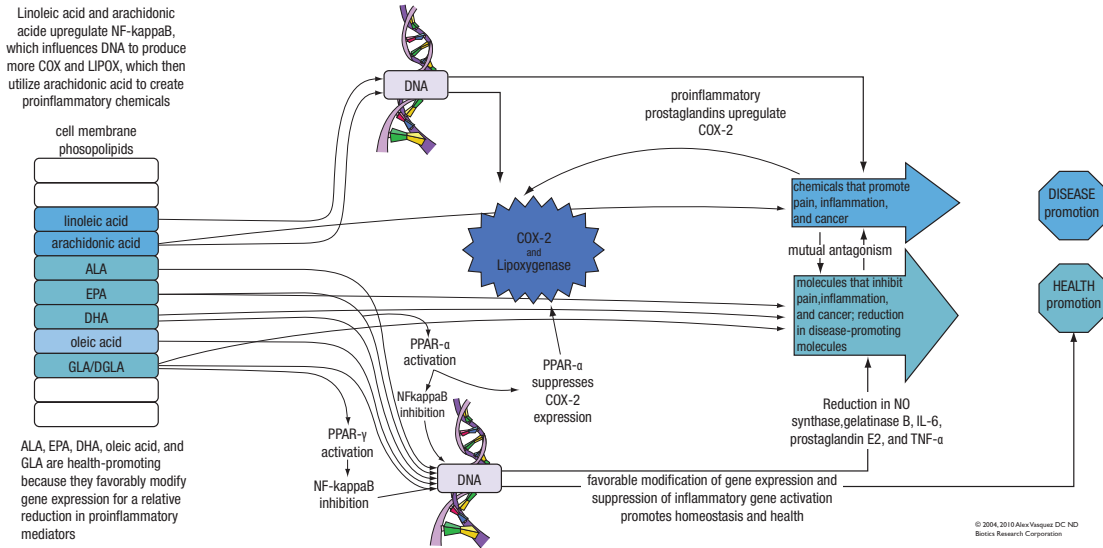

“Optimal EFAs® supplies a balance of essential fatty acids in amounts and ratios which provide significant health-promoting benefits to the widest range of patient groups.”

Alex Vasquez, DC, ND, DO

Essential Fatty Acids

Fatty acid imbalances are common in societies that consume an abundance of processed foods with artificial ingredients and hydrogenated fats, and have an over-reliance on grains. As a result, we are at risk for a deficiency or imbalance of EFAs, which can result in mood and memory alterations, neurological issues, high blood pressure, coagulation issues, altered cholesterol panels, slow wound healing, impaired growth, dermatological complaints, and poor vision.

EFA deficits generally occur in combination, therefore, supplementation with a balanced combination of EFAs is clinically prudent. Masterfully formulated with noted researcher and author, Dr. Alex Vasquez, DC, ND, DO, and tested for purity using the highest standards in the industry, **Optimal EFAs®** provides ALA, EPA, DHA, GLA, and oleic acid in ideal ratios.

“Consistent with the theme of current research, **Optimal EFAs®** supplies a balance of essential fatty acids in amounts and ratios that provide significant health-promoting benefits to the widest range of patient groups.” – Alex Vasquez, DC, ND, DO

Healthy Balance and Easy Dosing

Optimal EFAs® provides a gluten free, complete, and healthy balance of ALA, EPA, DHA, GLA, and Oleic essential fatty acids. Available as easy-to-take capsules (convenient especially for use at work and during travel) dosing can be easily tailored to a patient’s size, weight and health status.

Optimal EFAs® Caps is available in a 120-count bottle (#1407).

ORIVO Certified

ORIVO is a laboratory company in Norway that provides verification of the marine ingredients of our fish oils. The Orivo seal on our products assures the authenticity of the marine ingredients found in all of our fish oil products. It is a guarantee that the product is:

- Made from anchovy
- From a sustainable fishery off the coast of South America

GOED Member

GOED represents the worldwide EPA and DHA omega-3 industry, and our membership is built on a quality standard unparalleled in the market. The mission of GOED is to increase consumption of EPA and DHA omega-3s and ensure that its members produce quality products that consumers can trust.

Fish Oil Highlights:

- Bioavailable Triglyceride Form
- Therapeutic Potency
- 100% Anchovy
- Sustainable Fishery
- Orivo-Certified
- Lowest TOTOX Levels in the Industry (PPB)
- Naturally Clear Oil
- Tested for Plastics
- Competitively Priced

Flax Seed Oil

Product Number: 1405 (100C)

Flax Seed Oil Caps supplies pure, cold pressed flax seed oil, from certified organically grown flax seeds. Flax seed oil is a natural source of essential fatty acids, especially omega-3 fatty acids (ALA).

Active Ingredients:

Pure flax seed oil

Mixed EFAs™

Product Number: 1402 (8oz)

Mixed EFAs™ provides a mixture of seed and nut oils supplying essential fatty acids. It supplies pure walnut oil, hazelnut oil, sesame oil and Apricot kernel oil, providing alpha-linolenic acid (omega-3), linoleic acid (omega-6) and oleic acid (omega-9).

Active Ingredients:

Walnut oil, hazelnut oil, sesame oil, and apricot kernel oil

Optimal EFAs® Caps

Product Number: 1407 (120C)

Optimal EFAs® Caps supplies a unique balance of omega-3, -6, and -9 fatty acids by using the highest quality fish, flaxseed, and borage oils. Each capsule provides optimal ratios of alpha-linolenic acid (ALA), eicosapentaenoic acid (EPA), docosahexaenoic acid (DHA), gamma-linolenic acid (GLA) and oleic fatty acids. Optimal EFAs® Caps now contains EPA and DHA sourced from a strategically-placed facility in the far South Pacific Ocean off the coast of Chile, guaranteeing the freshest fish oil available with full traceability and unparalleled purity.

Active Ingredients:

Proprietary blend of flax seed oil, borage oil, and fish oil

Biotics Research Canada
Box 283 • Keswick ON L4P 3E2
orders@bioticscan.com

Biotics Research Corporation, Your Trusted Source of Essential Fatty Acids and Fish Oil Products.

All fats, even saturated fatty acids, play important roles in the body. However, the most vital fats are those our bodies cannot produce and must come from the diet. These essential fatty acids (EFAs) are based in linoleic (omega-3) and alpha-linolenic (omega-6) acids and need to be included in our daily intake. EFAs play an integral role in the optimal functioning of our bodies and build the foundation for overall health. They are required for the formation of cell membranes and are essential for cerebral and neurological development and functioning. EFAs are also necessary for the production of eicosanoids, which are collectively responsible for regulating blood pressure and viscosity and supporting healthy immune and inflammatory responses. They have also been shown to improve the biodiversity of the gut.

For a number of reasons, EFA deficiency is common in the general population due to a disproportionate intake of omega-6 fatty acids relative to omega-3 fatty acids. Therefore, it is important to take in enough and the right kinds of EFAs to optimize health and well-being.

Biotics Research Corporation offers a wide range of products containing various essential fatty acids, all produced from the highest quality ingredients. Our fish oil-based omega-3 fatty acids are sourced from the cold Pacific waters off the coast of South America, guaranteeing the freshest raw material available, full traceability of the products and unparalleled purity.

At Biotics Research, we take pride in maintaining the gold standard of quality in the industry, which means making quality and sustainability a priority when manufacturing supplements. For this reason, Biotics Research has become the first professional supplement brand to become a member of GOED, the Global Organization for EPA (Eicosapentaenoic Acid) and DHA (Docosahexaenoic Acid) omega-3s, and the first US supplement brand to partner with Orivo, a Norwegian-based company that certifies marine species, region of catch and sustainability. Our partnerships with Orivo and GOED not only validate our standards of quality, they confirm our fish oil is derived from a responsible fishery practicing sustainability of our marine life resources.

Biomega-1000™

Product Number: 1417 (90C)

Biomega-1000™ provides a potent dose of omega-3 essential fatty acids (EFAs), sourced from a strategically-placed facility in the far South Pacific Ocean off the coast of Chile, guaranteeing the freshest raw material available, full traceability of the product, and unparalleled purity. Each capsule delivers an impressive 1,000 mg of EPA and DHA, making it the ideal choice for therapeutic dosing.

Active Ingredients:

Vitamin E (as mixed tocopherols) and omega-3 fatty acids

Contains ingredients derived from Anchovy.

Bio-MCT™

Product Number: 1421 (16oz)

Bio-MCT™ is a medium chain triglyceride product, containing 100% caprylic triglycerides from coconut/palm kernel oil.

Active Ingredients:

100% caprylic triglycerides from coconut/palm kernel oil

Blackcurrant Seed Oil

Product Number: 1427 (60C)

Blackcurrant Seed Oil is a source of gamma linolenic acid (GLA), the most health-supporting essential omega-6 fatty acid. GLA has been shown to have lipid-modifying properties, and down-regulates inflammatory mediators. Each softgel capsule contains 535 mg of pure blackcurrant seed oil providing gamma linolenic acid (80 mg), alpha linolenic acid (55 mg), linoleic acid (235 mg), oleic acid (55 mg), palmitic acid (35 mg) and stearic acid (35 mg).

Active Ingredients:

Blackcurrant seed oil

EFA-Sirt Supreme®

Product Number: 1412 (180C)

EFA-Sirt Supreme® supplies a unique, highly concentrated essential fatty acid blend, providing an extremely effective relative combination of EPA, DHA and GLA, with all natural mixed tocopherols, specially formulated to be high in gamma (γ)-tocopherol.

Active Ingredients:

Natural mixed tocopherols, including d-gamma tocopherols, d-delta tocopherol, d-beta tocopherol, and d-alpha tocopherol, GLA (Gamma Linolenic Acid), EPA (Eicosapentaenoic Acid), DHA (Docosahexaenoic Acid), and additional omega-3 fatty acids

Evening Primrose Oil

Product Numbers: 1428 (100C)

Evening Primrose Oil is a supplemental source of all natural gamma-linolenic acid (GLA), the most health promoting omega-6 fatty acid. Together with the omega-3 fatty acids, omega-6 fatty acids play a number of crucial roles in the body. GLA plays a key role in the regulation of both inflammatory and immune processes. It plays an important role in brain function, as well as in normal growth and development, and is beneficial for the stimulation of skin and hair growth, the maintenance of bone health, the regulation of metabolism, and it also functions as an important component in the reproductive system.

Active Ingredients:

Gamma-linolenic acid and linoleic acid
