

# Liposomal Glutathione *Improved*

NPN 80049908

## What Is It?

Liposomal Glutathione offers enhanced-absorption liposomal glutathione for effective antioxidant support.

## Special Features:

- Offers the key antioxidant glutathione in a liposomal form
- Purified phosphatidylcholine delivery system offers natural liposomal formation due to the hydrophobic and hydrophilic nature of phospholipids
- Liposomal form protects glutathione bonds from the degradation that can occur in digestion

## Uses for Liposomal Glutathione

**Cellular Support:** Glutathione is a key component of the antioxidant system, which protects the body from free radicals at the cellular level. It is found in virtually every cell of the body and plays a critical role in supporting cellular function and homeostasis. Optimal levels of glutathione have been associated with the maintenance of good health. The highest concentration of glutathione is found in the liver, where it offers antioxidant support for liver tissue protection and p450 phase II conjugation pathways, a possible source of reactive oxygen species.

## What Is The Source?

Glutathione is sourced from corn glucose fermentation. The phospholipid complex is derived from soy.

## Recommended Dose

**Adults:** Take 1 capsule 1-2 times daily with meals, or as directed by a healthcare practitioner. Consult a healthcare practitioner for use beyond 8 weeks.

## Warning

Do not use if you are pregnant or breastfeeding.

## Liposome Glutathione

<b>Medicinal Ingredients (per capsule)</b>	<b>NON GMO</b>	<b>16 sg</b>
<b>BioGlute™ L-glutathione-phosphatidylcholine complex</b>		<b>.....343.75 mg</b>
<b>Providing:</b>		
<b>Setria® L-glutathione</b>		<b>.....250 mg</b>
<b>Phosphatidylcholine</b>		<b>.....93.75 mg</b>
<b>Non-Medicinal Ingredients: Gelatin capsule (Gelatin, Glycerin, Water), Extra virgin olive oil, Beeswax, Calcium carbonate.</b>		
<b>Contains: Soy</b>
