

Ultimate Prostate Support

Supports a Healthy Prostate

- Provides a combination of botanicals and nutrients with broad-based support for prostate health
- Botanicals have multiple mechanisms of action to limit inflammation and hypertrophy of the prostate
- Helps relieve the urological symptoms associated with mild-to-moderate benign prostatic hyperplasia (BPH) (e.g., weak urine flow, incomplete voiding, frequent daytime and nighttime urination)
- Standardized ingredients to ensure potency
- Softgel allows for easy use, with clinical-based doses

Code: 9258 **NPN:** 80028703
Size: 60 Softgels
Actual Size: 26.52 x 9.98 mm

PRODUCT SUMMARY

Ultimate Prostate Support provides a unique and comprehensive blend of botanicals and nutrients designed to support prostate health through complementary mechanisms. Saw palmetto, perhaps the most well-researched botanical, has been shown to bind to α 1-adrenergic receptors, inhibit 5 α -reductase activity, and have an anti-inflammatory effect in the prostate. Several meta-analyses of randomized controlled trials indicate it provides similar symptom relief to standard therapies for BPH or chronic prostatitis without the adverse effects on sexual function that may accompany standard treatment.

Phytosterols also provide anti-inflammatory and antiproliferative effects. They have been shown to relieve symptoms of BPH when used alone and to enhance saw palmetto's effects when used together. Nettle has anti-inflammatory and antioxidant properties, and also inhibits androgen activity in the prostate, with multiple clinical trials supporting its use. Turmeric has potent anti-inflammatory activity and has been shown to improve prostate-related symptoms as part of combination therapies. Rye flower pollen extract and *Pygeum africanum* have anti-inflammatory and antiproliferative effects on the prostate, with clinical trial data indicating they provide relief from prostate-related symptoms (often as part of combination therapies). Tomato extract provides numerous plant-based antioxidants, including lycopene, which have been shown to have anti-inflammatory, antioxidant, and antiproliferative effects, as well as improve symptoms associated with prostatic hypertrophy.

ULTIMATE PROSTATE SUPPORT

SUPPORTS A HEALTHY PROSTATE

Serving Size: 1 Softgel

Servings Per Container: 60

Each Softgel Contains:

| | |
|---|--------|
| Saw Palmetto Extract (<i>Serenoa repens</i>) (fruit) 160 mg (Standardized to 85–95% fatty acids) | 160 mg |
| Phytosterols (plant) 100 mg (80% combined beta-sitosterol, campesterol, and stigmasterol) | 100 mg |
| Nettle Extract 10:1 (<i>Urtica dioica</i>) (root) 75 mg | 75 mg |
| Turmeric Extract (<i>Curcuma longa</i>) (root) 25 mg (Standardized to 95% curcuminoids) | 25 mg |
| Rye Flower Pollen Extract 20:1 (<i>Secale cereale</i>) (pollen)..... 25 mg | 25 mg |
| Pygeum africanum Extract (bark) 25 mg | 25 mg |
| Tomato Extract (<i>Lycopersicon esculentum</i>) (fruit)..... 1 mg (Standardized to 6% lycopene) | 1 mg |

Non-medicinal Ingredients: Softgel (gelatin, glycerin, purified water, carob), soybean oil, yellow beeswax, lecithin.

Recommended Adult Dose: 1 softgel 2 times per day or as directed by a health care practitioner. Take with food to minimize gastric disturbance.

Recommended Use: Support for healthy prostate tissue and function. Used in herbal medicine to help relieve the urologic symptoms (e.g., weak urine flow, incomplete voiding, frequent daytime and nighttime urination) associated with mild to moderate benign prostatic hyperplasia (BPH). Used in herbal medicine to help reduce difficulty in urination associated with the early stages of BPH.

Caution: Consult a health care practitioner if you are taking anticoagulant or hormone medications, if you experience gastrointestinal discomfort, or if symptoms persist or worsen. Consult a health care practitioner prior to use to exclude a diagnosis of prostate cancer. Consult a health care practitioner prior to use if you have gallstones, a bile duct obstruction, stomach ulcers, or excess stomach acid. Not intended for use by women. Keep out of reach of children.

Contraindications: No absolute contraindications are established; review cautions listed.

Drug Interactions: No specific drug interactions exist, though a theoretical interaction between turmeric and antiplatelet medications suggests caution if used concomitantly.

Contains no artificial colours, preservatives, or sweeteners; no dairy, starch, sugar, wheat, gluten, yeast, egg, fish, shellfish, salt, tree nuts, or GMOs. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.
